

To the Honourable the Speaker and Members of the
House of Representatives in Parliament Assembled

PETITION FOR LEGAL PROTECTION REFORM

Bail Surety Industry Reform • Legal Defence Insurance • Digital Consent Admissibility

PREAMBLE

77%	of sexual assault cases that reach a court ruling in Australia result in a guilty outcome
14 Years	maximum sentence for sexual intercourse without consent — standard non-parole period of 7 years
62%	of wrongful convictions involve false allegations or perjury (National Registry of Exonerations)
87.7%	of AVO breach convictions are men — yet making a false AVO claim is NOT a criminal offence
4.5 Years	average prison term served — and rising every year, with 80% of guilty defendants imprisoned

We, the undersigned Australian citizens and residents, draw the attention of the House to the crisis of legal access faced by men accused of sexual offences. Accused persons are losing their liberty and accepting unjust plea deals — not because they are guilty, but because they cannot afford bail, cannot find a surety, and have no means to present evidence of consent. Justice must be accessible to all Australians, regardless of gender or financial circumstance.

YOUR PETITIONERS THEREFORE REQUEST THAT THE HOUSE:

REQUEST 1 — Legal Defence Insurance

Legislate a new category of personal legal expense insurance that covers criminal defence costs for Australians accused of sexual offences — ensuring all accused persons can access proper legal representation regardless of financial means, with coverage of up to \$100,000 in legal fees.

REQUEST 2 — Commercial Bail Surety Industry

Establish a regulated commercial bail surety industry in Australia, enabling ASIC-licensed companies to act as professional surety for bail applications. This ends the injustice of men remaining imprisoned on remand because no family member or friend can financially guarantee their court attendance.

REQUEST 3 — Digital Consent Evidence Admissibility

Mandate the legal admissibility of timestamped digital consent records — including video declarations, GPS verification, biometric facial identification, and session certificates — as supporting evidence in sexual consent cases before Australian criminal courts.

REQUEST 4 — Independent Review

Commission and fund an independent parliamentary review into the legal and financial barriers faced by Australians accused of sexual offences who cannot access bail, adequate legal representation, or present contemporaneous evidence of consent.
